The readers of this paper will be pleased to learn that there is at least one cure in all its stages and that is only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient strength by building up its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

Norway Lake, Maine.

About the middle of May, 1894, the women of this town organized a sewing circle for the purpose of obtaining money with which to meet once in two weeks through the summer and fall, and in December of that year held a sale which netted very nearly one hundred dollars. This was expended for books and in May, 1895, we had a library valued at one hundred and twenty dollars. By making it a free public library, the State aid was obtained, fifty dollars worth of books and twelve dollars in cash, a total of seventy-two dollars. In the summer of '95 through the influence of Mr. J. W. Parker, the Berlin Mills Co., presented to the secretary a check of fifty dollars to be used for the purchase of books, and a few months later Mrs. E. S. Coe of Bangor, sent us twenty dollars for the same purpose. We have also received five dollars from E. C. Rowe of Bethel, five dollars from Mr. Poor of Boston, and one dollar from a friend. These gifts are all unexpected, and as heartily appreciated. We venture to say that in no place would they be appreciated more than they have been in our little town where the library is so highly prized by every one. At the town meeting this year it was voted to raise twenty-two dollars, the limit allowed by law for the support and maintenance of the ensuing year. For the year ending May 4th, 1896, the Circle has paid into the library forty-one dollars and seventy-five cents. We now have a library of 387 volumes, the entire cost of which up to this time is two hundred ninety-four dollars, of which the women have paid one hundred and forty-one dollars, and we must give credit to three young girls for securing over fifty-seven dollars of that amount. A great advantage in any place, a library is doubly that with us, where there are so few opportunities for culture and education. We have many excellent books of reference on history, literature, and natural history. It was not expected that these would be read as generally as the fiction, but it was thought that they could be made of great benefit to the scholars who have never before been able to obtain any books of reference except the few to be found in the homes, and it is hoped that the teachers and pupils will avail themselves of this opportunity. I think I may say that we are justly proud of our Free Library. We realize in many places it would be but a grain of mustard seed, and though it has not assumed gigantic proportions even to us, we do feel that considering our numbers, location, and other disadvantages, we have been eminently successful in our undertaking, and though we may not be able to accomplish as much in the future as we have in the past, will continue to do what we can and trust we may be favored as we feel we have been thus far.

Francis L. Otis, Secretary.
